

MANTHAN VAGHASIYA

Full-Stack Web Developer | Founder, Webiox Digital Solution

Surat, Gujarat, India | +91 96647 36245 | Portfolio: webiox.tech/portfolio | GitHub: github.com/manthanvaghasiya

SUMMARY

Full-Stack Developer and technical partner specializing in high-conversion, modern web platforms and workflow automations for businesses, agencies, and hospitality brands. Experienced in React.js, Next.js, Node.js, and automated lead/booking pipelines (n8n, Webhooks, WhatsApp Cloud API). Proven track record delivering sub-second load times, mobile-responsive interfaces, and scalable architectures that eliminate operational bottlenecks and drive direct customer bookings.

CORE SKILLS

Frontend: Next.js, React.js, JavaScript (ES6+), TypeScript, Tailwind CSS, Responsive Design, CSS Flexbox / Media Queries

Backend & Automation: Node.js, Express.js, RESTful APIs, n8n Automation Workflows, Webhooks, Meta WhatsApp Cloud API

Databases: MongoDB, PostgreSQL, Supabase, MySQL

DevOps & Cloud: Vercel, Render, Cloudflare R2, ImageKit, Cloudinary, Git, GitHub

Business Solutions: Direct Booking Flow Optimization, Custom Lead Dashboards, Real-Time Notifications, Performance Auditing

PROFESSIONAL EXPERIENCE

Founder & Lead Developer – Webiox Digital Solution

Surat, Gujarat | Apr 2026 – Present

- Architect and deploy fast, responsive web platforms and conversion-focused landing pages for commercial clients and partner agencies.
- Engineered custom web portals and lead panels for businesses like Sadguru Car Melo and Hariram Motors using Next.js, React, and MongoDB.
- Built event-driven automation pipelines integrating form captures, secure webhooks, n8n workflows, and WhatsApp Cloud API, dropping client lead-response times from 3 hours to under 30 seconds.
- Implemented asset pipelines and caching strategies using Vercel, ImageKit, and Cloudflare to guarantee optimal Core Web Vitals and frictionless mobile UX.

Software Engineer – Arcelor Technology Private Limited

Surat, Gujarat | Feb 2026 – Mar 2026

- Contributed to production web application logic, interface modularization, and backend integration.
- Collaborated on code maintenance, cross-device debugging, and client-side performance tuning.

Full-Stack Developer (Intern) – Bluestock Fintech

Pune (Remote) | Sep 2025 – Nov 2025

- Built an end-to-end Company Registration & Verification module using React.js and PostgreSQL, handling user validation and data security.
- Refactored and optimized the core “HiringInsight” application with CSS media queries and Flexbox for seamless responsiveness across mobile devices.
- Handled REST API endpoints and data flows within a production codebase.

SELECTED PROJECTS

Sadguru Car Melo & Hariram Motors Portals – Next.js, React, Tailwind CSS, MongoDB

- Custom business websites with dynamic vehicle catalogs, lead-capture forms, automated instant-inquiry alerts, and responsive image pipelines.

GovDoc-Verify (GovClear Surat) – Next.js, Vercel

- Public web portal simplifying citizen administrative requirements and document verification, deployed with structured routing and fast static generation.

DairyFlow – Inventory Management Dashboard – MERN Stack

- Full-stack inventory system with secure RESTful APIs to track stock, manage suppliers, and visualize sales performance on a responsive React dashboard.

Old Book Exchange – E-commerce Platform – PHP, MySQL

- Built complete back-end logic for user accounts, book listings, and transactions, with a relational database schema designed in phpMyAdmin.

Lead-Panel & Business Automation Suite (CarLeads CRM) – Node.js, Webhooks

- Custom internal dashboards and webhook integrations to manage inbound prospect flows, track statuses, and trigger real-time sales team updates.

EDUCATION

Bachelor of Computer Applications (BCA) – SDJ International College (VNSGU), Surat (2023 – 2026)

Class 12th (Commerce) – Jawahar Navodaya Vidyalaya, CBSE – 75.6% (2023)

Honors: Ranked in the GREEN Olympiad (Ministry of Environment, Forest and Climate Change, Govt. of India, 2018)

- Regional-level volleyball player, district cluster tournament.
